Guests: Kerolous Messeha (Medicine; GSA Labour Relations Committee Nominee)

Deputy Speaker Preshit Verma in the Chair.

The meeting was called to order at 6:00 pm. Speaker acknowledged the traditional territory of Treaty Six.

Roll Call

1. Roll Call of GSA Council Members in Attendance

Approval of Agenda

2. Approval of the 19 June 2017 Consolidated Agenda

Members had before them the 19 June 2017 Consolidated Agenda, which had been previously distributed on 16 June 2017. M Khademi MOVED; F Khodayari SECONDED.

Motion PASSED unanimously.

Approval of Minutes

3. Minutes from the 15 May 2017 GSA Council Meeting

Members had before them the 15 May 2017 GSA Council Meeting Minutes, which had been previously distributed on 9 June 2017. M Khademi MOVED; R Barta SECONDED.

Motion PASSED unanimously.

Changes in GSA Council Membership

4. Changes in GSA Council Membership

None at this time.

**Councillor Announcements**

5. Councillor Announcements

None at this time.

**Action Items**

None at this time.

**Elections**

6. GSA Council Elections

Radim Barta (Chair of the GSA Nominating Committee) presented the item by explaining the election process and noting that members had four ballots to consider.

**GSA Council-Elected Officers Elections: GSA Chief Returning Officer (CRO), GSA Deputy Returning Officer (DRO), GSA Speaker, and GSA Deputy Speaker**

R Barta noted that no nominations were received for the positions of GSA DRO or GSA Deputy Speaker and that nominees for GSA CRO and GSA Speaker were given the opportunity to address GSA Council by responding to a question provided in advance. The GSA DRO nominee was present to answer the question and the nominee for the position of GSA Speaker had submitted a video.

The question for the nominees was as follows and the nominee had 45 seconds to respond: “please tell GSA Council what motivated you to run for this position.”

P Verma then invited GSA Council members to encourage their peers to nominate themselves for the position of GSA Deputy Speaker noting that the position was one in which nominees needed to be neutral and have a good understanding of GSA Council meeting procedures (as contained in the Standing Orders of GSA Council and in GSA Bylaw and Policy) and to move GSA Council meetings forward actively and with neutrality when presiding in the absence of the GSA Speaker.

T Nabe asked, as a point of clarification, what would happen if the GSA Speaker nominee was not elected and P Verma was away, in terms of who would chair the July meeting of GSA Council. J Tanguay clarified that the GSA would reach out to past Speakers, as recently happened at the April meeting of GSA Council.

Nominee for GSA CRO:
Darcy Bemister (AFNS)

Nominee for GSA Speaker:
Joshuha Connauton (Educational Policy Studies)

**GSA Standing Committees**

a. GSA Board and GSA Nominating Committee (1 vacancy)

Preshit Verma (Deputy Speaker) presented the item and introduced the nominee, who was given the opportunity to address GSA Council by responding to a question provided in advance.

The question for the nominee was as follows and the nominee had 45 second to respond: “please tell us why you’d like to serve in the joint position on the GSA Board and the GSA Nominating Committee.”

Nominees for GSA Board and GSA Nominating Committee:
Kenzie Gordon (Humanities Computing)

b. GSA Labour Relations Committee (4-8 vacancies)

R Barta explained to GSA Council that there were 4-8 vacancies on the GSA Labour Relations Committee (GSA LRC) and that 3 nominations were received. All of the nominees were invited to attend and address GSA Council by responding to a question provided in advance.

All nominees were in attendance. The question for the nominees was as follows and the nominees had 45 second to respond: “please tell us why you would like to serve on the GSA LRC.”

Nominees for GSA Labour Relations Committee:
Michael Armstrong (Chemistry)
Kerolous Messeha (Medicine)
For Discussion

7. GSA Board Strategic Work Plan – 2017-2018

Babak Soltannia (GSA President) presented the item and noted that the GSA Directly-Elected Officers (DEOs) held a day-long workshop to develop a first draft of the 2017-2018 GSA Board Strategic Work Plan (SWP) and then held a town hall to solicit feedback from graduate students. He specified that GSA Council was now asked to share its feedback on the attached High Level Summary of the 2017-2018 SWP prior to the Plan itself coming forward for information at the July meeting of GSA Council. B Soltannia summarised some of the highlights of the SWP including advocating for a review of graduate student funding and the creation of minimum funding packages, encouraging the use of a standardized contract for Teaching Assistants, Research Assistants, and Graduate Research Assistant Fellowships, and residence issues.

P Verma asked for additional details with respect to minimum funding packages and B Soltannia responded that UBC and other universities offered minimum funding packages and while, at the U of A, most faculties offered some funding package to their incoming graduate students, the GSA would like to work with Administration to see institution-wide standardized offers of admission that included a guarantee of minimum funding. M Khademi added that the goal was to make the responsibilities and rights of graduate students more clear in both their contracts and admission offers, and that the GSA would like to see some security in terms of the funding received by graduate students.

With respect to residence issues, B Soltannia noted that many Michener Park residents were still concerned about delayed ETS from Michener Park to the Southgate LRT station.

B Soltannia then invited GSA Council members to discuss the SWP in small groups. D Smirnow asked if there was a specific question the groups should focus on during their discussion and B Soltannia stated that any feedback with respect to the High Level Summary of the 2017-2018 SWP was appreciated.

After the small group discussion, each group shared the highlights of their discussion.

Group 1: T Nabe as the group spokesperson noted that:
- The group liked that the GSA Board would continue advocating for tuition increases tied to CPI instead of API;
- UBC had a shuttle to transport students around campus late at night and the group suggested adding this idea to the SWP;
- It would be ideal to have professors being clear graduate students as to the exact amount of funding they could provide in offers of admission;
- The group discussed the possibility of having ranges of minimum funding to better suit graduate students with higher and lower funding needs; and
- Group members discussed minimum funding for course-based graduate students, as opposed to just thesis-based graduate students.

Group 2: D Shepherd as the group spokesperson noted that:
- The group liked the idea of ensuring all admission offers (including funding offers) were transparent;
- The group discussed whether graduate student enrolment would decrease if minimum funding packages were implemented; and
- The group discussed whether the GSA could support graduate student internship programs as an alternative for graduate students to secure funding.

Group 3: A Lewis as the group spokesperson noted that:
- The group discussed how “time to completion” could be best defined;
- They questioned how money would be secured to provide minimum funding packages;
- They discussed how to define sustainable housing and how standards of sustainable and/or affordable housing would be determined;
- In developing clear contracts to protect graduate students there was a need to ensure supervisors were also aware of these requirements;
- They asked how the GSA would improve transit for Michener Park residents; and
- They expressed the need to clearly define power imbalances with supervisors.

Group 4: N Prather as the group spokesperson noted that:
- Group members felt strongly about developing specific resources to facilitate supervisory relationships, such as developing a code of conduct for students and professors and they had a long discussion about minimum funding and how it related to the labour changes introduced by Bill 7.

Group 5: M Armstrong as the group spokesperson noted that:
Group members discussed how minimum funding packages could affect entrance averages and the number of graduate students admitted to each department and they suggested adding an item to the SWP to address the recently implemented ‘sticker price’ increase to international tuition and the need to ensure that the commensurate rebate of $2,000 for part-time international students and $4,000 for full-time international students remained in place in future years.

Group 6: D Bemister as the group spokesperson noted that:

- Group members were wondering how much of a priority graduate student residence issues were in terms of how many graduate students were actually affected by them;
- Minimum funding would be complex to implement given that departments differ significantly; and
- Group members agreed that promoting the need for clear and concise contract terms in letters of offer was important and establishing early expectations could help alleviate potential financial issues more than the push for minimum funding packages.

Group 7: D Li as the group spokesperson noted that:

- Group members indicated that none of the group members had faced issues with respect to unclear funding or expectations for work but noted that it would be good to have standardized admission offers; and
- They suggested focusing on graduate students in course-based programs, as they often have limited access to funding.

Group 8: B Richardson as the group spokesperson noted that:

- Group members broadly agreed with elements of the SWP;
- One idea brought forward was the need for horizontal support (peer-to-peer support) to facilitate addressing graduate students’ very specific needs;
- Current time to completion rates were very unrealistic and penalties for not completing on-time were imposed on graduate students rather than on their supervisors;
- Group members agreed on the need for a clear position on labour issues as a result of Bill 7;
- They wanted to see more specificity in the SWP in terms of the steps the GSA DEOs would take to achieve their goals; and
- They discussed feedback they heard from graduate students who felt it was important to have an explicit commitment to diversity included in the Collective Agreement.

Group 9: O Bamforth as the group spokesperson noted that:

- Group members discussed the minimum funding package proposal at length and thought it sounded good in theory but were concerned that it could discourage graduate students from applying for other external scholarships;
- Group members discussed whether a one-size-fits-all funding package would be the best way to go, and if it would be prudent to include an opt-out option if students did not want to receive a minimum funding package; and
- Group members discussed retaking courses and noted that while they were open to the suggestion they were concerned about its application and potential associated fairness issues.

F Khodayari responded to some of the questions raised by the various groups. He noted that, with respect to the difference in the individual and team goals, team goals were identified as those requiring all the GSA DEOs to work on the same issue through their differing committee appointments and meetings with different stakeholders. He then noted that, while it could be the case that by implementing minimum funding packages departments would admit fewer students, ensuring secure minimum funding packages and a great University of Alberta graduate student experience were equally important priorities. M Woghiren asked where the money for minimum funding packages would come from. She noted that, with respect to retaking courses, not all courses had exams and she suggested a broader discussion about deferral and extension policies. F Khodayari responded that the SWP emphasized the importance of first requesting the University to develop a solid set of data on current graduate student funding across campus and within faculties and departments. He also noted that they could explore the possibility of retaking project-based courses and that it would be important to balance fairness for all students in the process of retaking courses.

M Khademi thanked GSA Councillors for their input and noted that, on the topic of the minimum funding packages, the GSA DEOs had heard complaints from graduate students regarding funding, and that they did not yet know the extent of the problem or the level of complexity. He emphasized that this was the rationale behind the team’s desire to convince the University to conduct a graduate student funding review. With respect to residence issues, M Khademi reported that in 2016-2017 there was a Residence Life Task Force which included representatives from the SU, GSA, Ancillary Services, and the Office of the Dean of Students. He added that this group would be working in the upcoming years on implementing the recommendations developed in the Task Force’s report. M Khademi encouraged GSA Councillors to contact him with any additional feedback.

S Srivastava noted that graduate students in course-based programs were not provided with any funding and that his program was listed as a cost-recovery program. He suggested the GSA create a list of these departments.

B Soltannia thanked GSA Councillors for their feedback and indicated that the GSA Board would incorporate suggestions received prior to bringing the SWP forward to GSA Council for information at the July meeting.

9. Vice-President Academic
   i. Vice-President Academic’s Report:
Members had before them a written report, which had been previously distributed on 16 June 2017. The report stood as submitted. In addition, F Khodayar stated that two Motions recently passed at FGSR Council involving changes to the examination policy and the supervision policy and he added that these changes would now go through the University governance process with an implementation target of July 2018. He noted that he was happy with the changes, which increased transparency in the processes.

10. Vice-President External
   i. Vice-President External’s Report
Members had before them a written report, which had been previously distributed on 16 June 2017. The report stood as submitted. In addition M Khademi invited GSA Councillors to talk with the DEOs after the meeting if they had further questions/comments about the SWP.

   ii. GSA Awards Selection Committee
No meetings this reporting period.

11. Vice-President Labour
   i. Vice-President Labour’s Report
Members had before them a written report, which had been previously distributed on 16 June 2017. The report stood as submitted. S van der Klein was not present as she was representing the GSA at a mental wellness summit in Calgary and GSA Councillors were invited to email her with any questions.

M Woghiren noted that she recently met with S van der Klein and urged any GSA Councillors who had not met already done so to book a time with her. M Woghiren encouraged GSA Councillors to discuss with their departmental colleagues about their wishes for the next Collective Agreement including the right to strike and noted that one key thing to consider was that having the right to strike would also mean that the University would have the right to lock graduate students out.

   ii. GSA Negotiating Committee
No meetings this reporting period.

   iii. GSA Labour Relations Committee
No meetings this reporting period.

12. Vice-President Student Services
   i. Vice-President Student Services’ Report
Members had before them a written report, which had been previously distributed on 16 June 2017. The report stood as submitted. In addition R Feng stated that he recently attended the Studentcare conference in Montréal and was impressed with the level of student activism at McGill University and Université de Montréal. He also noted that the Campus Food Bank had seen a usage increase over the past few years and reminded GSA Council that many of those relying on their services were graduate students. R Feng further urged GSA Council to be active in their departments and faculties, and to encourage their peers to make their voices heard.

13. Senator
   i. Senator’s Report
No written report at this time. T Nabe added that he would submit a report to GSA Council as soon as he was assigned duties by the Senate.

Prepared by L Hareuther and F Robertson for the GSA Council Meeting of 19 June 2017
14. Speaker  
   i. Speaker’s Report

16. GSA Nominating Committee  
   i. GSA Nominating Committee Report  
   Members had before them a written report, which had been previously distributed on 16 June 2017. The report stood as submitted. In addition, R Barta stated that there were two vacancies on the Green and Gold Adjudication Committee, and asked GSA Councillors to consider nominating themselves before the deadline of June 21; he then reminded GSA Council of the vacancies for the GSA DRO and Deputy Speaker positions. He added that if anyone wanted to be more involved or have an impact, this was a good place to do that. R Barta invited GSA Council members to email him with any questions about these opportunities.

17. GSA Elections and Referenda Committee  
   ii. GSA Elections and Referenda Committee Report  
   No meetings this reporting period.

18. GSA Management  
   i. Executive Director’s Report  
   Members had before them a written report, which had been previously distributed on 16 June 2017. The report stood as submitted. In addition C Thomas stated that the recent GSA audit went very well and she noted that the GSA Auditor, Tom Gee, would attend GSA Council in July to present the audited financial statements. She also noted that this would be her last GSA Council meeting until the fall as she would soon be going on maternity leave.

A Tawieh asked for clarification on the recent GSA Board Policy changes noted in the GSA Board report to GSA Council. C Thomas responded that the change was to amend a previously unrealistic timeline for GSA Council remuneration to be completed in the Departmental Academically-Related Graduate Student Group Grant: Remuneration Based on Councillor Attendance at GSA Council section.

Outline of Issue

2016-2017 GSA Audited Financial Statements

Suggested Motion for GSA Council:

That the GSA Council RECEIVE FOR INFORMATION the 2016-2017 GSA Audited Financial Statements.

Note: At the meeting of June 14, 2017, the GSA Budget and Finance Committee (GSA BFC) received for information the 2016-2017 GSA Audited Financial Statements. At the meeting of June 28, 2017, the GSA Board approved and forwarded to GSA Council the 2016-2017 GSA Audited Financial Statements. Members of the GSA BFC have been invited to attend the July 17, 2017 meeting of GSA Council.

Background:

The GSA is required by the Post-Secondary Learning Act (Section 97(1)) to have its financial statements audited annually. Our auditor is with the firm Collins Barrow LLP (Auditor Tom Gee, MBA, FCA).

Note from the Executive Director: The audit process begins with a Letter of Engagement, which sets out the parameters of the audit. Members of our audit firm, Collins Barrow LLP, then visit the GSA office to review relevant financial information and other files/policies. The audit representative(s) have access to any info they wish to see, and pose questions to the GSA Accountant, Financial Manager, and Executive Director. The President and Executive Director review and sign off on the audit and the audited financial statements then proceed to the GSA BFC, GSA Board, GSA Council, and, ultimately, the Board of Governors for information. They are also posted on the GSA website.

At the request of the Auditor, the GSA BFC discusses the audited financial statements in closed session prior to receiving them for information and the GSA Board discusses the audited financial statements prior to approving them. GSA Council is asked to discuss the audited financial statements in open session prior to receiving them for information.

The main message from the Auditor is that the GSA is in solid financial shape.

Jurisdiction:

Post-Secondary Learning Act, Section 97(1)

“Each student organization of a public post-secondary institution shall provide audited financial statements annually to the board of the public post-secondary institution and shall make the audited financial statements available to students of the public post-secondary institution on request.”

GSA Bylaw and Policy, Section K: Finances, GSA Policy, Budget Principles, Practices, and Procedures, Section K.POL 5.5.a:

“Following the GSA fiscal year end, the GSA Accountant and the GSA Financial Manager, in consultation with the ED, will arrange for an audit of the GSA’s financial records by the approved auditor as required by the PSLA. Audited financial statements are normally due ninety (90) days after year-end. Audited financial statements will be submitted by the Auditor to the President and ED; then to GSA BFC for information; then to the GSAB for approval; then to GSA Council for information and onward transmission to the University of Alberta Board of Governors. The GSA Accountant and the GSA Financial Manager will prepare draft financial statements and the year-end working papers.”

INDEPENDENT AUDITORS' REPORT

To the Members of The Graduate Students' Association of the University of Alberta

We have audited the accompanying financial statements of The Graduate Students' Association of the University of Alberta, which comprise the statement of financial position as at March 31, 2017 and the statements of operations, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian accounting standards for not-for-profit organizations, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of The Graduate Students' Association of the University of Alberta as at March 31, 2017 and the results of its operations and its cash flows for the year then ended in accordance with Canadian accounting standards for not-for-profit organizations.

1. **NATURE OF OPERATIONS**

The Graduate Students' Association of the University of Alberta (the "Association") is a not-for-profit organization incorporated on December 20, 1972 pursuant to Section 94(1) of The Post-Secondary Learning Act. The purpose of the Association is to represent the interests of graduate students before the University administration and the general public. As a not-for-profit organization under the Income Tax Act (Canada), the Association is exempt from income taxes.

2. **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

(a) **Basis of presentation**

The financial statements were prepared in accordance with Canadian accounting standards for not-for-profit organizations.

(b) **Cash**

Cash is defined as cash on hand and cash on deposit, net of cheques issued and outstanding at the reporting date.

(c) **Restricted cash and investments**

Restricted cash consists of guaranteed investment certificates that are being held for long-term purposes.

Restricted investments have quoted prices in an active market and are carried at fair value. Unrealized gains or losses are reported in operations.

(d) **Property and equipment**

Property and equipment are recorded at cost and amortized on the straight-line basis over their estimated useful lives using the following annual rates:

- Leasehold improvements 10%
- Furniture and fixtures 20%
- Computer equipment 30%

(e) **Revenue recognition**

The Association follows the deferral method of accounting for contributions. Restricted contributions are recognized as revenue in the year in which the related expenses are incurred. Unrestricted contributions are recognized as revenue when received or receivable if the amount to be received can be reasonably estimated and collection is reasonably assured.

Student fees cover the academic year from September to August. A portion of fees received for the period from April to August is recorded as unearned fees and recognized as revenue in the following fiscal year. Other revenue is recorded in the period in which it is earned.

(continues)
2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(f) Donated goods and services

The work of the Association is dependent on the donated goods and voluntary services of many members. The value of donated goods and services is not recognized in these statements.

(g) Activity expenses

The Association has chosen to classify their expenses by function. Detailed revenue and expenses for each function are disclosed in the supporting schedules.

(h) Use of estimates

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates used in the preparation of the financial statements include estimated useful life of property and equipment for purposes of calculating amortization, accrued liabilities and deferred contributions related to property and equipment. Actual results could differ from those estimates.

(i) Financial instruments

Measurement of Financial Instruments

Financial instruments are financial assets or financial liabilities of the Association where, in general, the Association has the right to receive cash or other financial asset from another party or the Association has the obligation to pay another party cash or other financial assets.

The Association initially measures its financial assets and financial liabilities at fair value.

The Association subsequently measures all its financial assets and financial liabilities at amortized cost except for restricted investments which are measured at fair value.

Financial assets measured at amortized cost include cash, accounts receivable and restricted cash.

Financial liabilities measured at amortized cost include accounts payable and accrued liabilities and health and dental plan payable.

Impairment

Financial assets measured at cost are tested for impairment when there are indicators of impairment. The amount of the write-down is recognized in operations. A previously recognized impairment loss may be reversed to the extent of the improvement, directly or by adjusting the allowance account, provided it is no greater than the amount that would have been reported at the date of the reversal had the impairment not been recognized previously. The amount of the reversal is recognized in operations.

6. DEFERRED CONTRIBUTIONS RELATED TO PROPERTY AND EQUIPMENT

Deferred contributions related to property and equipment represent funds received from the University of Alberta which have been used to fund the renovation of the Killam Centre for Advanced Studies. The deferred contributions related to property and equipment is amortized on the same basis as the related leasehold improvements.

Changes to the deferred contributions related to property and equipment balance were as follows:

7. INTERNALLY RESTRICTED NET ASSETS

Internally restricted net assets are comprised of the following funds:

Legal Defense Fund
The Legal Defense Fund was established to provide resources to enter into legal action where appropriate. Any unspent funds at year-end from the budgeted legal fees are placed into the fund.

During the year, $10,063 (2016 - $63,724) was transferred into the fund.

Health and Dental Plan Reserve Fund
The Health and Dental Plan Reserve Fund was established to ensure that adequate funds would be available in the event the Health and Dental Plan costs exceed the amounts collected in fees from graduate students. The fund balance fluctuates to allow for the addition or withdrawal of investment funds depending on when fees collected exceed or are less than plan costs.

During the year, $2,223 (2016 - $nil) was transferred into the fund.

Financial Stabilization Fund
The Financial Stabilization Fund was established to safeguard the Association against uncertainty and to provide for unknown, unexpected expenditures that would provide for the ongoing operations of the Association. The balance will be adjusted annually at the discretion of the Board and will grow until it is equal to at least six months’ operating costs.

During the year, $46,953 (2016 - $50,000) was transferred into the fund.

Human Resource Fund
The Human Resource Fund was established to fund medical and parental leave for the staff and the managers.

During the year, $598 (2016 - $60,000) was transferred into the fund.
8. LEASE COMMITMENTS

The Association has a five year lease which expires June 2021, to lease a portion of the Killam Centre for Advanced Studies from the University of Alberta at $1 per year and utilities at no cost.

The Association leases photocopiers under operating leases expiring in 2018. The future minimum annual lease payments to the expiry of the lease is $3,833.

10. FINANCIAL INSTRUMENTS

The Association's financial instruments consist of cash, accounts receivable, restricted cash and investments, accounts payable and accrued liabilities and health and dental plan payable.

The Association is exposed to various risks through its financial instruments. The following provides information about the Association's risk exposure as of March 31, 2017.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Association does not believe it is subject to any significant concentration of credit risk. Cash is in place with a major financial institution. Accounts receivable are generally amounts receivable from the University of Alberta.

Liquidity risk

Liquidity risk arises from the possibility that the Association might encounter difficulty in settling its debts or in meeting its obligations related to financial liabilities. It is the Association's opinion that there is no significant liquidity risk as of March 31, 2017.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Association is exposed to interest rate risk arising on its interest bearing guaranteed investment certificates. As the guaranteed investment certificates are cashable at any time, the Association is not subject to interest rate risk.

Dear GSA Council Colleagues,

July 7, 2017

Having reviewed the attached statements in depth with the members of the GSA’s Financial Team of Courtney Thomas, Shirley Ball, Dorte Sheikh, and Heather Hogg, as well as with the GSA Budget and Finance Committee, I am pleased to report we are on track overall after the end of the first two months of our fiscal year. Since we are only working with two months worth of data related to our revenue and expenses it is not possible to make definitive statements concerning how our budget will ultimately unfold (however, there is no reason to believe we will not remain on track). I have highlighted a few areas to draw your attention to below.

Advocacy
The Financial Team and the GSA BFC are committed to closely reviewing the Alberta Graduate Provincial Advocacy Council’s budget over the coming year in advance of any proposal related to increasing the fee, and to reviewing the various mechanisms by which any agreed upon increases to the fee can be paid.

Enrolment
As a fees based organization, graduate student enrolment levels are the key drivers of our budget and, as has been the case in previous years, the Financial Team will closely monitor these as the fall term begins and report back to the GSA Budget and Finance Committee, the GSA Board, and GSA Council on how any increases or decreases in enrolment will affect our budget.

Capital Items
Pursuant to the office’s five-year evergreening plan, we have purchased a few much-needed laptops this year.

Bill 7
We are anticipating expenses associated with this legislation in upcoming months. As you are aware, and has been reported to GSA Council, we have requested a legal review to ensure we are compliant with the provisions of Bill 7 and are in the process of reviewing the feedback received as well as discussing the best means to further communicate with graduate students on this pivotal issue.

In closing, let me both stress that, overall, we continue to be in excellent shape financially and offer my thanks to the Financial Team and to the members of the GSA BFC.

Babak Soltannia, GSA President and Chair of the GSA BFC
Outline of Issue
GSA 2017-2018 Budget and Expenditure (Quarterly) Report

Suggested Motion for GSA Council:

That GSA Council RECEIVE FOR INFORMATION the GSA 2017-2018 Budget and Expenditure (Quarterly) Report.

Background:

These reports have been created to build year-over-year tracking and monitoring into the GSA’s financial systems, and allow greater control over budget. In addition to yearly comparisons, regular reporting allows for better forward planning and illustrates the GSA yearly financial cycle.

The Financial Team (GSA Executive Director Courtney Thomas, CPA and GSA Accountant Shirley Ball, GSA Financial Manager Dorte Sheikh, and GSA Director of Operations Heather Hogg) agrees that the GSA’s budget is on track and there are no issues of concern at the end of the first two months of the GSA’s 2017-2018 fiscal year.

At its meeting of June 14, 2017 the GSA BFC received for information and forwarded to the GSA Board the GSA 2017-2018 Budget and Expenditure (Quarterly) Report. At its meeting of June 28, 2017, the GSA Board received for information and forwarded to GSA Council the GSA 2017-2018 Budget and Expenditure (Quarterly) Report. Members of the GSA BFC have been invited to attend the July 17, 2017 meeting of GSA Council.

GSA President and GSA BFC Chair Babak Soltannia sets out additional background in the attached cover letter.

Jurisdiction:

Section K: Finances, GSA Policy, GSA Standing Committees, GSA Budget and Finance Committee, Section K.POL.3.3: "The GSA BFC will receive for information and forward to the GSAB quarterly reports on expenses and revenues; these reports will present comparative information from previous years in a way that shows, in transparent fashion, the percent of the annual budget spent in each quarter, by budget division."

Section K: Finances, GSA Policy, Budget Principles, Practices, and Procedures, Section K.POL.5.4.a: "The GSA Accountant and the GSA Financial Manager will prepare a Budget and Expenditure Quarterly Report which will first be submitted to the Executive Director (ED), then the GSA President and then to the GSA BFC, the GSAB, and to GSA Council for information. It is suggested that these reports be organized by budget divisions and lines, with the following information in easy-to-follow columns: current budget; actual year-to-date expenditure, forecast to the year end, total forecast, balance remaining, percent remaining, informative comment on any variance or approved reallocation, and comment on significant comparisons from previous years. All such reports will be compliant with Alberta’s Personal Information Privacy Act and other applicable laws."

**Explanatory notes:**

Under the variance column black numbers indicates more revenue received than budgeted, or an expense savings.
Projected surplus funds will be applied to the Financial Stabilization Fund.
Since only two months of actuals are being reported the budget variances are very preliminary.

### Explanatory notes:
Since only two months of actuals are being reported a balanced budget is presented. As such the budget is neither over spent or under spent.

0% means no variance at this point, budget is on target.

## GSA REVENUE

### GSA Fees

- **GSA Fees (annual membership fee)**  
  - **$1,133,333 budget**
    - **Brief Description**
      - The Graduate Students’ Association (GSA) is supported by graduate student annual membership fees which are levied by GSA Council and collected by the University. The fees received are based on the number of full-time and part-time graduate students attending the University. Following approval of the fee amount by GSA Council the annual fees are submitted to the University Board of Governors to provide for collection.
      - Based on the three-year funding agreement signed between the GSA and the University on March 2, 2016, the GSA will receive:
        - 40% advance in May based on the projected fall/winter enrollment
        - 90% (of fall term fees) in October based on the assessed fees for the fall/winter terms, *after the fall term 100% withdrawal deadline in October*
        - 90% (of winter term fees) in February based on the assessed fees for the fall/winter terms, *after the winter term 100% withdrawal deadline in February*
        - Final payment in April (next fiscal year) after the actual graduate student enrollment is reconciled.
    - **Narrative and Variance**
      - For 2017-2018, the projected GSA revenue is $1,133,333. This is based on fees paid by an estimated 5,975 full-time graduate students (5,975 @ $163.07 per graduate student) and an estimated 1,300 part-time graduate students (1,300 @ $122.30 per graduate student)
      - Actual April to May: $453,335
      - Forecast June to March: $679,998
      - The 2016-2017 actual was $1,126,136

### Investment Revenue

- **Interest and Investment Income**  
  - **$25,000 budget**
    - **Brief Description**
      - Interest income on investment portfolio and bank account holdings.
      - An investment strategy for these funds has been established. ATB Investment Management Inc. is managing the investment portfolio.
      - Interest income on bank account holdings is deposited monthly.
      - Interest income on investment portfolio is re-invested and not cashed out.
    - **Narrative and Variance**
      - On target
      - Actual April to May: $2,286
      - Forecast June to March: $22,714
      - The 2016-2017 actual was $47,390

is to lobby to the Alberta government and promote the interests and concerns of graduate students.

- Fees for the new ab-GPAC have been set at $3.00 per graduate student per year, effective September 2015.
- Previously the fees for AGC were $2.00 per year, covered in part by a dedicated fee of $0.50 assessed per graduate student per term that was implemented by a referendum in 2000. The remaining $0.50 per graduate student per term is paid out of the GSA operating budget as the “GSA contribution.” In the time between the disbanding of AGC and the start-up of ab-GPAC the dedicated fees collected were held in reserve. This reserve has been drawn down to cover the $1.00 difference in fees. Consequently, in 2017-2018 the budget has been increased to cover the fees from the Operating Budget.
- Pending a future assessment of the stability and effectiveness of ab-GPAC, a referendum could be initiated to enable graduate students to vote for the full fee amount to be collected directly from graduate students.

The remaining $0.50 per graduate student per term is paid out of the GSA operating budget as the “GSA contribution.” In the time between the disbanding of AGC and the start-up of ab-GPAC, the dedicated fees collected were held in reserve. This reserve has been drawn down year to cover the $1.00 difference in fees. Consequently, in 2017-2018 the budget was increased to cover the fees from the Operating Budget. • Pending a future assessment of the stability and effectiveness of ab-GPAC, a referendum could be initiated to enable graduate students to vote for the full fee amount to be collected directly from graduate students.</td>

Dear GSA Council Colleagues,

July 7, 2017

Each spring the GSA Directly-Elected Officers (DEOs) produce a GSA Board Strategic Work Plan (SWP). The SWP serves to identify key priorities and initiatives, direct the GSA’s efforts for the coming year, and identify areas where we can work with others in the University community.

In developing the first draft of the 2017-2018 SWP, the GSA President and Vice-Presidents used the 2016-2017 SWP as a starting point and made several updates, including removing projects that were fully completed in 2016-2017, minor rephrasing, and including points from the 2017-2018 DEO platforms not already included in the 2016-2017 SWP.

Following this preliminary work, the elected team participated in a workshop on May 18 to develop the 2017-2018 SWP. Next, the draft 2017-2018 SWP was reviewed and discussed by the GSA Board on May 24 and May 31. During these conversations, the DEOs identified several key team goals, as well as other pivotal initiatives associated with individual DEO portfolios. These goals were shared with GSA Council on June 19, 2017, and following the GSA Councillor group discussions, the GSA Board reviewed and incorporated the feedback and ideas received into the SWP. The elected team is committed to working on all the initiatives outlined in their SWP, but will use the team and individual portfolio goals, as listed below, to guide their conversations and work with key stakeholders in the University community.

**Team Goals:**

• Advocate for the University to launch a review of the current state of graduate student funding on campus and to consider the creation of transparent and sustainable funding packages for all thesis-based graduate students that support a reasonable standard of living and which take into consideration ‘time to completion’ requirements, the cost of living in Edmonton, and current tuition costs.

• Promote the need for clear and concise contract terms in letters of offer issued by the University, and urge that these letters be made available to graduate students well in advance of deadlines for offers of admission.

• Advocate for the continuation of a tuition model that ties graduate student tuition increases to the Alberta Consumer Price Index (CPI), oppose across-the-board increases, and advocate that provincial regulations concerning tuition increases be applied to international graduate students. Should some formulary aside from tethering increases to Alberta CPI be considered (such as the Academic Price Index), ensure that proper consultation is undertaken and that any such proposals will benefit graduate students.

• Support the need for sustainable, affordable, and well-maintained graduate student housing on campus and other options to both prevent homelessness and enhance the graduate student experience.

• Advocate for appropriate training and accountability measures that retain a focus on addressing power imbalances in supervisory relationships and create a culture in which graduate students are acknowledged as junior colleagues.
**Individual Portfolio Goals:**

- Ensure active participation in the Mandatory Non-Instructional Fees (MNIFs) Oversight Committee. (*President*)

- Maintain engagement with the Alberta Graduate Provincial Advocacy Council (ab-GPAC) to ensure the priorities of U of A graduate students are heard by both ab-GPAC and the provincial government. (*President and Vice-President External*)

- Support professional development and internship opportunities for graduate students. (*Vice-President Academic*)

- Engage with Residence Associations and other stakeholders concerning the collection of Residence Association fees. (*Vice-President External*)

- Assist graduate students living in residences to ensure safe conditions and the provision of excellent services, which will include securing GSA representation on the newly formed Residence Oversight Committee. (*Vice-President Student Services and Vice-President External*)

- Negotiate for increased compensation for graduate assistantships in the Collective Agreement and educate the campus community on the provisions of the Collective Agreement. (*Vice-President Labour*)

- Ensure the GSA’s compliance with Bill 7 and consult with/educate graduate students on the implications of this legislation. (*Vice-President Labour*)

- Support the Campus Food Bank in its mission to ensure the delivery of adequate food for students and their families. (*Vice-President Student Services*)

Along with the GSA Vice-Presidents, I am looking forward to a productive and engaging year working closely with the University’s administration team, and other stakeholders, as we pursue these goals on behalf of our graduate student constituents. I encourage you all to read the full 2017-2018 GSA SWP, and look forward to discussing it in more detail at our July meeting.

Sincerely,

Babak Soltannia

2017-2018 GSA President
Outline of Issue

GSA Board 2017-2018 Strategic Work Plan

Suggested Motion for GSA Council:

That GSA Council, on the unanimous recommendation of the GSA Board, RECEIVE FOR INFORMATION the GSA Board 2017-2018 Strategic Work Plan, as attached.

Background:

Please see the attached cover letter for background information.

At the June 21, 2017, meeting of the GSA Board, members approved forwarding to GSA Council the GSA Board 2017-2018 Strategic Work Plan.

Jurisdiction:

Post-Secondary Learning Act (PSLA) 94(3):
"The graduate students association of a university shall provide for the administration of graduate student affairs at the university, including ... the promotion of the general welfare of the graduate students consistent with the purposes of the university."

GSA Policy, GSA Standing Committees, Section F.POL.3.2.a
"The GSAB is the senior administrative authority of the GSA as delegated to it by Council."
The GSA respectfully acknowledges that it is located on Treaty 6 territory and Métis homelands.

**VISION:** The Graduate Students’ Association (GSA) advocates for an engaging environment that is safe, respectful, supportive, healthy, accessible, and inclusive, and that empowers graduate students to be agents of change during their time at the University of Alberta, and beyond.

**MISSION:** Recognizing the multi-faceted roles played by graduate students at the University of Alberta, the GSA: advocates for comprehensive, timely, and excellent supports for all graduate students from both the University and the Alberta Government; negotiates a collective agreement that equitably supports graduate students who are employed by the University and works to ensure compliance with said agreement; engages graduate students and supports their endeavours; and works to sustain the excellent reputation of the GSA.

The GSA believes that a healthy organization is nurtured through effective relationships with all stakeholders, including constituent groups of the academy. Nonetheless, an organization that evolves over time must be prepared to take steps at critical junctures that may or may not be endorsed by all its stakeholders. The GSA sees this as a living document, shifting directions as needed, as the provincial, federal, and University landscapes change. It is developed by both the previous and current teams of Directly-Elected Officers and provides a planning document for this and future years. Our overall goal is to create a campus community where all graduate students feel encouraged to learn and are provided with reasonable supports (and accommodations, when necessary) to ensure their success.

**OUR IDEAL DEFINITION, SITUATION, AND EXPERIENCE FOR ALL GRADUATE STUDENTS:**

A graduate student is a junior colleague who contributes to their field of study in pursuit of an advanced degree through collaborative work with the professoriate and senior colleagues in research, teaching, administrative tasks, and the development of learning environments within the University. These contributions may be accomplished through: extensive coursework, for which graduate students pay tuition; academic employment, for which graduate students are paid; the co-creation and writing of scholarly work; the securing of academic funding; presentations, conferences, and community engagement; and capstone projects, theses, or dissertations. This multi-faceted position takes place in an environment of mutual respect and fairness aimed at developing skills and knowledge for future careers.

---

1 Stakeholders include: individuals, groups, and offices that can affect or are directly affected by, the GSA and its initiatives. Constituent groups of the academy include: faculty, graduate students, undergraduate students, non-academic staff, and post-doctoral researchers and fellows.
**ADVOCATE**

**Goal 1:** Work with the University and government to ensure graduate students receive affordable tuition, funding packages, and access to bursaries, scholarships, and awards.

Post-secondary education plays an important role in a prosperous society. Graduate students’ success is dependent upon access to sustainable and appropriately sized funding packages for the duration of their programs so they can focus on their studies and research. The GSA will advocate that all graduate students should be offered baseline funding. The GSA will also advocate for greater financial supports, including higher compensation for assistantships, more scholarships, awards, and bursaries, and increases to the Graduate Student Support Fund (GSSF).

<tr>
<th>Strategic Objectives</th>
<th>Action Steps (2017-2018 and ongoing)</th>
</tr>
</thead>
</table>
| 1. Advocate for transparent and sustainable funding packages that support a reasonable standard of living, taking into consideration the cost of living in Edmonton and current tuition costs for all thesis-based graduate students for the duration of their programs. | Present, to the Board Human Resources and Compensation Committee, on the need for higher assistantship rates and increases to the GSSF (2017-2018).  
Take all opportunities to share the GSA’s proposal requesting a review of graduate student funding at the University and advocate to the President, Provost, and Dean of the Faculty of Graduate Studies and Research (FGSR) that such an internal review begin as soon as possible (2017-2018).  
Engage the Minister of Advanced Education with respect to the significant contributions of graduate students to the quality of education and research offered at comprehensive, research intensive universities, and the need for a funding models that specifically recognize graduate students and their research and undergraduate teaching (ongoing).  
Maintain discussion with the Dean of the FGSR and the Provost on how to create financial packages that correspond with realistic times to completion and collaborate to assess current gaps in funding for graduate students (ongoing).  
Take all opportunities to remind University administration that funding tied to a supervisor that is not subject to appropriate oversight within the broader framework of a minimum funding package can increase the power imbalance between these parties (ongoing). |
| 2. Advocate, to University administration and the FGSR, on the need to include clear and concise contract terms in letters of offer to the University, and make these letters available to graduate students well in advance of deadlines for offers of admission. | Ask regularly in meetings with the Dean of the FGSR and other members of University administration that documentation provided to new graduate students upon an offer of admission be reviewed and that specific expectations and requirements for graduate assistantships during a program be outlined in letters of offer (ongoing). |
Advocate for more education and compliance concerning the Collective Agreement within the campus community (ongoing).  
Continue to track information associated with compliance in order to prepare for future negotiations (ongoing). |
4. **Advocate** for the inclusion of international graduate students in the eligibility requirements for existing scholarships, awards, and bursaries.  
Collaborate with the Alberta Graduate Provincial Advocacy Council (ab-GPAC) on issues and necessary improvements for international graduate student tuition and funding in Alberta *(2017-2018).*  
Maintain the GSA’s stance that international graduate students should have access to Tri-Council funding and enhanced access to provincial funding opportunities, as well as be included in provincial nomination programs related to permanent residency *(ongoing).*

5. **Advocate** for assistance, support, and encouragement for all graduate students to apply for internal, provincial, and federal awards, grants, and scholarships.  
Promote the FGSR and departmental workshops and resources designed to assist graduate students with application processes and communicate with individual departments as required to provide sufficient notice to graduate students of internal application deadlines *(ongoing).*

6. **Advocate** for quality measures, funding models, and graduate student management plans that do not favour some faculties or departments over other faculties or departments.  
Ensure graduate students are involved in any reform discussions associated with quality measures, funding models, or graduate student enrolment management plans *(ongoing).*  
Create opportunities to discuss the University’s decentralized faculty model and how it creates significant disparities in program expectations and requirements, funding options, and time to completion for graduate students *(ongoing).*

7. **Advocate** for the continuation of a tuition model that ties graduate student tuition increases to the Alberta Consumer Index (CPI) and opposes across-the-board increases.  
Meet with University administration to get updates concerning the 2017-2018 changes made to international graduate student tuition and ensure continuation of the full “rebate” ($4,000 for full-time graduate students and $2,000 for part-time graduate students) associated with the commensurate increases in international tuition *(2017-2018).*  
Maintain the GSA’s past stance in opposition to across-the-board tuition increases beyond the Alberta CPI for all graduate students and, in partnership with ab-GPAC, advocate for the inclusion of international student tuition fees in the province’s Tuition Fees Regulation. Should tuition increases be tied to some other agreed upon formulary, advocate to ensure that graduate student support levels increase commensurately *(ongoing).*  
Ensure ongoing appropriate graduate student consultation prior to and after the introduction of any increases to tuition fees *(ongoing).*

8. **Advocate** against the introduction of new market modifiers or other fees that are not currently a part of an agreed upon regulatory framework.  
Ensure appropriate graduate student consultation prior to the introduction of any new or increased fees, including Mandatory Non-instructional Fees (MNIFs) *(ongoing).*  
Maintain active participation in the MNIF Oversight Committee and closely monitor proposals to apply the Academic Price Index formulary to fees other than MNIFs to ensure any such proposals will benefit graduate students *(ongoing).*
**ADVOCATE**

**GOAL 2:** Work to develop supportive and respectful relationships between graduate students and their academic supervisors.

Graduate student success relies on quality supervision and mentoring throughout a degree program. The GSA will build on work by previous graduate student leaders and collaborate with the FGSR and senior University administrators to make quality graduate student supervision an institutional priority.

| Strategic Objectives                                                                 | Action Steps (2017-2018 and ongoing)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------|                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1. **Advocate** for the development of a supervisory training program for both incoming graduate students and supervisors and for the development of an accountability structure that rewards quality supervision and mentoring while creating incentives to improve poor supervision. | Finalize the GSA’s “list of questions to ask before pursuing graduate studies” document and circulate it to the FGSR Council (2017-2018). Collaborate, with the FGSR, on the implementation of recommendations from the Quality of Graduate Student Supervision Report and other similar initiatives (ongoing). Take any opportunities to promote and develop resources to ensure a better understanding of the roles and responsibilities of both graduate students and supervisors that provide clear expectations for both (ongoing). Promote a restorative justice and mediation process to encourage prompt resolution of any graduate student-supervisor conflicts (ongoing). |
| 2. **Advocate** for departments to develop a means by which graduate students can report concerns regarding their supervisors. | Collaborate with the FGSR on programs to track the quality of the graduate student-supervisor relationship over time, including the creation of a feedback process for graduate students (ongoing). Related to the above, advocate to the FGSR that it work with other Faculties to develop an online platform to support the safe disclosure of supervisory concerns in order to better track the level and types of concerns over time, and discuss ways to address any systemic issues that emerge (ongoing). |
| 3. **Advocate** for realistic ‘time to completion’ rates in order for both graduate students and supervisors to develop reasonable expectations regarding the length of the degree program. | Collaborate with the FGSR on ways to mitigate systemic ‘time to completion’ problems, ensure transparency concerning expectations, and to develop metrics to track faculty and graduate student adherence to program timing and associated requirements to allow proactive intervention if problems arise (ongoing). |
| 4. **Advocate** for enhanced flexibility with respect to course-related examination practices in the interests of promoting enhanced mental wellness and career outcomes. | Discuss, with the FGSR, the possibility of revising FGSR policies concerning course-related examinations (including the ability to retake examinations and amend transcripts accordingly) (2017-2018). |
ENGAGE

**GOAL 1:** Develop and maintain relationships with all GSA stakeholders, both internal and external to the University, to support graduate student success.

Graduate students play unique and multifaceted roles in a university environment. The GSA will advocate for further resources to support graduate students by reinforcing strong relationships with key players to create a common vision of excellence for all graduate students at the University, as well as across Alberta and Canada.

ENGAGE

**GOAL 2:** Increase graduate student awareness of and participation with the GSA and its services.

The GSA believes engagement occurs from the time someone asks for information about the graduate studies admission process through to convocation. The GSA supports continuing graduate student engagement through University governance, networks in residence and elsewhere, professional development, and in other settings where collaboration can occur. The GSA is committed to continue offering orientation sessions, 101s, and investigating other means to reach graduate students, as well as to investigating effective communication methods that will create opportunities for graduate student awareness and engagement.

SUPPORT

**Goal 1:** Ensure all graduate students have access to sufficient resources to meet their basic needs.

The GSA is a vigilant voice for the graduate student experience, including funding, housing, and services. In order for graduate students to have a positive experience at the U of A, key infrastructure pieces must be in place before graduate students register. The current unpredictable and unsustainable funding model can create situations where graduate students cannot afford safe housing and/or sufficient food. The lack of sustainable graduate student funding creates significant strain on mental health and leads to: increased drop-out rates; increased draws on Health and Wellness services; and a decreased focus on studies and research productivity.

**SUPPORT**

**Goal 3:** Continue to build a safe, respectful, supportive, and appreciative learning and work environment for all graduate students that is compliant with the GSA’s Collective Agreement governing graduate student assistantships.

All graduate students are entitled to a safe and respectful work environment, free from harassment, discrimination, and bullying. For graduate students with assistantships, the Collective Agreement is a legally binding document between the GSA and the Board of Governors that outlines the expectations for fair compensation and a beneficial work environment. The GSA will build upon the advances it has made to assist graduate students with Collective Agreement issues, and ensure University-wide awareness and compliance of the Collective Agreement.

GSA NOMINATING COMMITTEE (GSA NoC)  
GSA BUDGET AND FINANCE COMMITTEE (GSA BFC) (1 POSITION FOR A GRADUATE STUDENT MEMBER):  
1 NOMINEE  

This position was advertised in the June 29, 2017 GSA newsletter with a nomination deadline of July 6, 2017. No nominations were received. A second call for nominations was circulated to GSA Council on July 6, 2017 with a nomination deadline of July 13, 2017. One (1) additional nomination was received.  

The overall mandate of the GSA BFC is to “advise the President and management on the financial affairs of the GSA and to provide for the long-term financial health of the organization. Members are expected, by GSA Council, to rise above any local/departmental views or issues and to take into account the needs of the GSA as a whole.” (GSA Bylaw and Policy, Section K: Finances, GSA Policy, GSA Standing Committees, GSA Budget and Finance Committee, Section K.POL.3.1).  

There will be a paper ballot vote held at the July 17, 2017 GSA Council meeting.  

If you and your alternate are unable to attend the July 17, 2017, meeting of GSA Council and would like to cast an electronic vote for this position, you must contact the GSA Nominating Committee Coordinator (gsa.nomcomm@ualberta.ca) BEFORE 3:00 PM on Monday July 17, 2017, in order to cast your vote in advance of the GSA Council meeting.  

Nominees for this position are listed in alphabetical order by last name and will be presented in reverse alphabetical order on the ballot. ‘None of the Candidates’ will also be considered a nominee.

### Statement of Interest

I've previously served on a number of GSA bodies including Council, Board, and the Nominating Committee for several years, and so I am familiar with the GSA's services, bylaws, policies, general operations, and current and past budgets. In addition, I've served on a professional development advisory committee for FGSR and the Green and Gold Leadership & Professional Development grant for the past year. Now I want to bring my experience to the Budget and Finance Committee!

### Bio

The U of A has been my home for quite a while- I completed my Bachelor's of Science here and started an MD-PhD program in a zebrafish research lab in Biological Sciences. I am fascinated by the complexity of the eye and the brain, and in the future I hope to work with patients with neurodegenerative diseases. When I'm not in the lab, I enjoy reading Terry Pratchett novels, running in the river valley and marathoning shows on Netflix.

### Summary Resume

My primary research foci include: understanding how colour-sensitive neurons develop, with the hope to manipulate stem cells into becoming colour-sensitive neurons to reverse blindness; and how a key protein, SOD1, becomes toxic and causes neurons to die as happens in ALS (Lou Gehrig's disease). As a grad student who has been at the U of A for a while now, I've collected a variety of experiences: I've taught as a TA, mentored over a dozen students in basic science research, managed husbandry and breeding programs comprising 2500 research animals, delivered science and human sexuality educational outreach programs to youth, volunteered for Edmonton track and field events including the PanAm Junior Athletics Championships, and served on several committees. I've been told I am who people are talking about when they say, "if you want something done, give it to a busy person," which is nice to hear (on most days!). My coursework is complete and my schedule can accommodate BFC meetings.
On June 23, 2017, GSA Council members were notified via email of one (1) vacancy on the GSA GC for a member of GSA Council. The deadline to receive nominations was July 5, 2017 and no nominations were received. A call for additional nominations was emailed to GSA Council on July 6, 2017. The deadline to receive additional nominations was July 12, 2017 and one (1) additional nomination was received.

The overall mandate of the GSA GC is to “advise GSA Council on matters of GSA Bylaw and Policy not in the purview of any other GSA Standing Committee, or other governance issues, and recommend changes to GSA Council” and to “make any editorial changes (such as factual inaccuracies and other editorial issues) to the GSA governing documents as deemed necessary by the GSA GC” (GSA Bylaw and Policy, Section F: GSA Standing Committees, GSA Policy, GSA Standing Committees, GSA Governance Committee, Section F.POL.4.2.a and F.POL.4.2.b).

There will be a paper ballot vote held at the July 17, 2017 GSA Council meeting.

If you and your alternate are unable to attend the July 17, 2017, meeting of GSA Council and would like to cast an electronic vote for this position, you must contact the GSA Nominating Committee Coordinator (gsa.nomcomm@ualberta.ca) BEFORE 3:00 PM on Monday July 17, 2017, in order to cast your vote in advance of the GSA Council meeting.

**Statement of Interest**

I am a recently elected representative of graduate students in the Department of Chemistry. I already serve on the Labour Relations Committee, and would like to help out by submitting my nomination to serve on the Governance Committee. I hope that by gaining practical knowledge with GSA bylaws will allow me to serve as a more effective councillor. I have been learning a lot during these last few months; maybe the most surprising to me has been the diversity of interests different graduate students have. Knowing this, I hope I would be as fair as possible serving on Governance Committee. I know that the world does not begin and end with the needs of my own department.

**Bio**

I started out at the University of Alberta with a double major in Philosophy and Classical Languages. I wasn’t very good at either of those subjects, so I transferred to the Faculty of Science and graduate with a Bachelor of Science with Specialization in Chemistry in 2016. The summer following I was fortunate to have to opportunity to perform research at Soochow University in Jiangsu Province, PRC. I am currently performing research with the Metabolomics Innovation Centre (TMIC) and the Harynuk group studying quantitative metabolomics using 2D GCxGC-TOFMS. I play violin in a polka band part-time, and practice languages as a hobby.

**Summary Resume**

Relevant work and volunteer experience includes but is not limited to: Volunteer with Let’s Talk Science | Parlons Sciences, Vice-President External of the Chemistry Graduate Students’ Society (CGSS), Volunteer for National Chemistry Week, former Community Outreach Officer with Elections Canada, and former Vice-President Internal for the Undergraduate Philosophy Club.

#### Bio

I am an international student from the UK. I attended Murray Edwards College, Cambridge for my undergraduate and master's degrees, and have a BA and MSci in Natural Sciences, with a specialisation in biochemistry. As an undergraduate I wrote on science and society issues for several student publications, and acted as a science communicator for Cambridge Hands-on Science (CHaOS) and The Triple Helix. Since moving to Canada has a graduate student, I have been a co-ordinator for Let's Talk Science at the University of Alberta and have worked in science communication for multiple organisations.

#### Summary Resume

I am finishing my third year of my PhD, studying evolution of micro-organisms with respect to environmental pressures in the Alberta oil sands. I have also carried out research into psychological factors which motivate action on climate change in collaboration with the Political Sciences department and the Institution of Public Administration Canada. I have acted as a TA for multiple courses in the Faculty of Medicine. I have held TA, RA and GRAF positions in the university, and am currently one of the student reps on the Graduate Programmes Committee for the Faculty of Medicine and Dentistry.

Dear Valued Councillor Friends and Colleagues,

I hope everything is going well for each of you, and that everyone has had the chance to spend time outside and enjoy the weather!

Following the previous GSA Council meeting and our great discussion about the GSA Board Strategic Work Plan (SWP), we integrated your valuable comments into the final SWP. We are honored to present it to GSA Council, and will be sharing it with University administrators and stakeholders in the near future. If anyone would like to provide more feedback, beyond the discussion we will have on Monday, please feel free to email me at gsa.president@ualberta.ca.

During the past months, the GSA’s annual audit was completed and the GSA’s Financial Team prepared the first financial report of the current fiscal year. As the GSA auditor stated during meetings of the GSA Budget and Finance Committee and the GSA Board, and as you will hear during the GSA Council meeting on July 17, the GSA continues to be in an excellent financial position.

Highlights from my meetings during the past month include my discussion with Dr. Heather Zwicker (Dean of the Faculty of Graduate Studies and Research (FGSR)) on how the FGSR and the GSA can continue collaborating this year to assist grad students. We’re working on several items, including finalizing the list of questions for prospective thesis-based graduate students to ask before applying to graduate school, reviewing the GSA’s proposal to initiate a review of graduate student funding, as well as highlighting common issues affecting grad students. I found this meeting very positive and constructive, and Dean Zwicker expressed support for our funding review proposal. Another very positive and constructive discussion arose from my meeting with Dr. Steven Dew (Provost and Vice-President Academic) to hear his feedback and comments about our priorities for this year, including (again) the funding review proposal, issues connected to time to completion rates, and Collective Agreement compliance. This meeting also was very constructive and positive, and Dr. Dew expressed interest in our funding review proposal. In future meetings with the Provost I will discuss the proposal further and how to potentially initiate the review.

In addition to several other meetings that the others DEOs and I attended, and as Masoud mentioned in his report, Masoud and I met with University of Alberta International and outlined several key issues concerning international graduate students.

Finally, I want to share how proud and thankful I am to my team for being very responsible, hardworking, collaborative, and helpful even during times when they are on short academic or personal leaves.

Kindest regards,
Babak Soltannia, GSA President

Dear Council Colleagues,

These long days of summer are the best for hiking and other outdoor activities, and I hope you are taking advantage of them. As Vice-President Academic, I have attended several meetings and been involved with various discussions during the last month; I will share the highlights with you in this report.

**Study Hall Program**

The aim of this program is to provide services for students, including support in English writing and mathematics. The program will be run by the Dean of Students Office. The plan is to identify the available services on campus, improve them, and then fill in any gaps. The tutors will be chosen from among graduate students and these will be paid positions. The tentative plan is to start the program during the upcoming academic year and to focus on three groups of students: Lister residents, international students, and graduate students. I will get back to you with more details as the program moves forward.

**Signature Areas Development Panel**

The panel agreed moving forward two themes to Deans' Council for discussion and possible support in the early fall: Energy Systems and Precision Health. Out of the current proposed themes, these two were the only ready to move to the next step. I will update you as the panel makes more progress and other themes get approved.

I am happy to answer any questions or comments that you might have regarding this report. Also, I would be more than happy if you would like to share your suggestions or concerns regarding any academic related issues you have encountered at the University.

Thanks,

Firouz Khodayari, GSA Vice-President Academic

GSA Vice-President External
Report to GSA Council for the July 17, 2017 Meeting

To: GSA Council
From: Masoud Khademi
Date: July 14, 2017

Dear Council Colleagues,

I hope everything is going well and that you are enjoying the summer so far. I am on a personal leave for July so the list of meetings I attended since the last GSA Council meeting is short and I will try to keep my report short and sweet this time.

During the past month, as Royle reported, we attended a dinner with the other GSA Directly-Elected Officers and the Students’ Union (SU) executive team. The main purpose of this meeting was to get to know the undergraduate student leaders and building a strong relationship between the two U of A student associations. During this meeting, I had a productive discussion with Reed Larsen, Student Union VP External and Chair of the Council of Alberta University Students (CAUS), regarding his plans for the upcoming year and areas of potential collaboration between the GSA and the SU.

The other meeting I attended this past month, along with the GSA President, was with Doug Weir, Executive Director Student Programs and Services at University of Alberta International (UAI). We discussed international student recruitment strategies and international collaboration for the U of A. Babak and I shared some of the issues and concerns that international graduate students currently face at the U of A and we will continue to meet with UAI to discuss these topics.

The other important meeting that I attended this month was the GSA Labour Relations Committee (GSA LRC) meeting. We discussed Bill 7 and the upcoming round of collective agreement bargaining. Please refer to the GSA LRC report for more information, on page 13.7.

At the end, as always, if you need more information or have any questions regarding the meetings that I have attended this past month, do not hesitate to contact me.

Sincerely,
Masoud Khademi, GSA Vice-President External

GSA Vice-President Labour
Report to GSA Council for the July 17, 2017 Meeting

To: GSA Council
From: Sasha van der Klein
Date: July 14, 2017

Dear Council Colleagues,

Again, I have to say sorry I cannot be there! I am attending a chicken conference in Orlando, Florida – the Poultry Science Association Annual Meeting. I know, currently not the greatest time or destination for a conference, but I owe it to my chickens to present my research on them. I realize my report is enormous but I hope you take the time to read it; it does contain essential information about 1) Bill 7, 2) the labour consultations, 3) a Teaching Assistantship survey, and 4) tuition deductions for scholarship holders.

1) Bill 7

Please review the document attached to my report on pages 13.4-13.6. In it I summarize all the information we have up until now. Additionally the GSA will hold a second town hall to do an overview of, and get feedback on, the changes brought forward by Bill 7 on July 24. You can RSVP for this session using this link: https://goo.gl/forms/wVolhyRYfDDFOgi33.

2) GSA Councillor Labour Consultations

The second issue I want to update you on is the labour consultations I have been having over the past few months. I met with 59% of the departmental Councillors that currently fill a seat on our Council, 49% if you also count seats that are currently not filled. Although you can still book meetings with me using this link: goo.gl/Kbbzfd, the following is a summary of the feedback that I have received and that I will consider for next year’s negotiations and in developing our strategy to implement changes towards compliance with Bill 7.

The labour situation

- Majority of the Councillors would rate the situation in their department as good, but could see ways to improve.
- Most Councillors see current issues as a lack of transparency, unclear communication, and unclear procedures around appointments.
- Some departments are divided in several different divisions and therefore the situation in each of these divisions might differ.
- In general, most Councillors recognized that the situation for students in a thesis based masters or doctoral program is mostly dependant upon the supervisor, not necessarily the department.

The right to strike and Bill 7

- All Councillors were worried about the financial consequences for graduate students in the case of a strike.
- The majority of Councillors supported having the right to strike, some were surprised we didn’t have this right already.
• Councillors from departments with course based masters or professional programs only, or departments where limited Graduate Assistant positions are available, did not see the right to strike as an added value for their situation.

• Solidarity might be an issue if a strike vote would go out. A minority of departments would step up for other departments, and only if the issues involve unsafe situations.

• Councillors’ opinions on building a strike fund were very diverse, often depending on the funding opportunities within each department.

Conclusions
From the labour consultations, I have concluded that although there are several ways departments can improve their labour practices, graduate students overall evaluate their labour situation as satisfactory. I believe that improvements can be made institutionally by increasing compliance with the Graduate Student Assistantship Collective Agreement and encouraging structural and/or cultural changes within departments and the University. In addition, graduate students value the opportunity to develop teaching skills. Regarding the recent legislative changes, the impact on departments might differ very much depending on the student population and the available Graduate Assistant positions within departments. The majority of the Councillors were in support of maintaining the right to strike. Overall, the labour consultations confirmed that the GSA should strive towards a situation where there is clarity, open communication, predictability, and sustainability around graduate student funding and graduate assistantships.

3) Teaching Assistantship Survey
Thank you all of you who took the time to fill out the survey! This is very important to show the University that TAships are not accessible for all graduate students, and therefore not all graduate students will be able to develop teaching skills in their program. Below is a short report of the survey’s results.

The survey was sent out to all GSA Councillors and open from June 2 to July 7 for responses. Out of the 58 filled GSA Council seats, 41 Councillors and Alternates responded out of 37 departments (64% of all departments).

Available Opportunities – Councillors’ Responses
• About 78% of the respondents have access to TA positions within their department, 22% don’t out of this another 22% don’t have opportunities to TA in other departments.
• About 67% of the respondents that don’t have TA positions available indicated that there were positions in other department they could apply for, however, they had little chance of being appointed.
• In 35% of the respondents noted that students in their department are promised the TA opportunities.

TAships and Funding/Income – Councillors’ Responses
• About 63% of the respondents indicated that TA positions were part of the funding package in their department, but for only about 34% is holding a TA position a requirement to hold the funding package.
• About 63% of the respondents indicated that offer letters in their departments were clear about the fact that they (might) have to TA for receiving the promised funding.
• About 9% responded that their departments don’t have a guaranteed funding package.
• 72% responded that the TA positions are an essential part of the graduate students’ income in their department.

**TAships and Academic Requirements – Councillors’ Responses**

• 13% of the respondents indicated that, in their department, TA positions were an academic requirement for their program, 6% of the respondents indicated that they didn’t know if TA positions were a requirement of their program.

**Procedures Around Appointments – Councillors’ Responses**

• 59% responded that TA positions are not advertised in their department and 60% responded that they are no clearly defined eligibility requirements for the TA positions.
• 19% of the respondents indicated that they didn’t think that the process of appointing TA positions is not fair.
• 29% of the respondents indicated that they didn’t know who to contact if they had questions around TA appointments.

The next step is to take these results to the Dean of Students and the Dean of Faculty of Graduate Studies and Research (FGSR) to show them that it is necessary to educate departments around these issues. Hopefully this will be a first step towards a more transparent system, where graduate students get equal opportunities to develop their teaching skills.

4) **Tuition Deductions for Scholarship Holders**

Another development for this month has been the discussion with FGSR around tuition deductions for scholarship holders. Currently, only when you hold a GRAF, TA, or RA position can you get your tuition deducted from your pay. Internal or external scholarship holders have to pay their tuition at the beginning of the term. These are, for example, students who receive a doctoral recruitment scholarship from FGSR or a NSERC scholarship. I had received feedback from several students that this is an unfair system. Scholarship holders don’t necessarily have the financial means to pay their tuition in full at the beginning of the term as their scholarship payments are paid out, as for Graduate Assistants, in a biweekly manner. Therefore scholarship holders either have to pay late fees or interest when they pay tuition in instalments. I followed up with FGSR, and although there is no easy fix (they would have to change the HR system for tuition deductions for scholarship holders), we are looking at other solutions for current students to mediate this situation (e.g. waiving interest for paying in instalments).

That was July! Let me know if you have questions, and feel free to contact me at any time! I will answer my email in my absence with a slight delay, sorry for that in advance!

Thanks,

Sasha van der Klein, GSA Vice-President Labour

Dear Councillors,

In June the GSA management team and I met with one of our lawyers (who specializes in labour matters) to discuss the implications of Bill 7 for the GSA and the steps we need to take as an organization to ensure compliance. Below I summarize the information we have received.

- **Effectively the GSA now serves as the representative organization for two groups, and has different mandates associated with its representation of each group.** Under the existing provisions of the *Post-Secondary Learning Act (PSLA)*, the GSA continues to represent the interests of all 7,000+ graduate students at the U of A. However, as a result of the changes to the *PSLA* mandated by Bill 7, the GSA is now recognized as a “trade union” and the “bargaining agent” that represents/negotiates for a subsection of graduate students referred to in the *PSLA* as “academically employed graduate students.” Bill 7 includes Teaching Assistants (TAs) and Research Assistants (RAs) as “academically employed graduate students”; it is still unclear if Graduate Research Assistants Fellowships are included.

- **As was the case with the existing *PSLA*, Bill 7 empowers the GSA to act with *exclusive authority to negotiate and enter into agreements with the University* regarding the academic employment of graduate students by the University and this will be the case for the next five years.
  - This means that, until 2022, the GSA is the “union” that represents academically employed graduate students.

- **Before bargaining begins for a new collective agreement, all AEGS i.e. TAs and RAs, as members of the bargaining unit represented by the GSA, must be given an opportunity to provide feedback to the GSA on our mandate for bargaining.** In addition to requesting feedback electronically we will host a town hall to hear from academically employed graduate students directly.
  - The membership of our unique bargaining unit is transitory. That is, you may have a TA position in August when we host the town hall and so get invited to that but then, come October when it is time to finalize the mandate or later, after negotiations, when the bargaining unit is asked to ratify the CA, you may not be a TA and so will not be asked to vote on the final version. This reality may pose some challenges in terms of the timing and the form our communications to the members of our bargaining unit may take.
  
- The mandate will include all the major matters that the GSA aims to negotiate on (such as increases to compensation rates and areas of the Collective Agreement in need of revision) as well as information on
dispute resolution processes if negotiations break down. Bill 7 gives the GSA the right to engage in a strike action (and gives the University the right to lock out academically employed graduate students) but it is important to note that the GSA also has the option of pursuing binding arbitration and, in the unlikely event that there is an irreparable breakdown in negotiations, whether to strike or to seek arbitration is something which will be decided democratically by the members of the bargaining unit.

• **Ratification** of a new collective agreement *must* be done only by the members of the bargaining unit (ie, graduate students holding TA or RA appointments at the time the ratification vote is circulated).
  o This means the new collective agreement will no longer be ratified by GSA Council, as past agreements have been, but rather through a process in which all graduate students holding a TA or RA at the time of ratification will be able to vote. This will necessitate changes to GSA Bylaw and Policy (see below).

• **We will be required to negotiate an Essential Services Agreement** with the University.
  o Some duties associated with TA or RAs may be deemed “essential services,” meaning (as noted in Bill 7):
    a) Their interruption could endanger the life, personal safety, or health of the public
    or
    b) They are necessary to the maintenance and administration of the rule of law or public security.

• **There is no obligation for the GSA to build a strike fund.**
  o A strike fund would be built from a designated deduction made from TA and RA stipends. It’s important to be aware that, should the GSA decide to build such a fund, it would take several years to grow it to a size where it could offer at least even partial support to TAs or RAs engaged in a strike action and that, given that the landscape might dramatically change in 2022 (see above), attempting to build and manage such a fund now might be premature.
  o I have also heard, via the labour consultations that I have been engaging in with graduate students, that most are not interested in paying a percentage of their salary for a strike fund which they may never need to access and which, in the event of a strike, may provide limited relief.
  o That said, this remains very much an evolving issue that the GSA needs to engage with and ultimately TAs and RAs will need to decide how to proceed on this matter.
The GSA needs a bylaw that addresses the processes for seeking feedback from the bargaining unit with respect to a negotiating mandate, negotiations themselves, and the ratification of any collective agreement.

- Amendments to existing GSA Bylaw and Policy, including repealing GSA Council’s role in ratifying collective agreements, modifying the role of the GSA Labour Relations Committee (GSA LRC), reviewing the GSA Negotiating Committee (GSA NC), reviewing the GSA Vice-President Labour portfolio, and adding a process to get feedback directly from the members of the bargaining unit (rather than through the limited membership of the GSA LRC). These proposed amendments will be brought forward to GSA Council.
- Likewise, a new separate GSA Bylaw and GSA Policy governing collective bargaining will be brought forward to GSA Council.
- Bill 7 mandates that these bylaws and policies be submitted for vetting to the Labour Relations Board by July 2018 and making these changes to the GSA’s governing documents is necessary to ensure we are in compliance with this new legislation.

If you have questions, please contact me at gsa.vplabour@ualberta.ca. I look forward to discussing this very important matter.

Kind regards,

Sasha van der Klein

Report to GSA Council for the July 17, 2017 Meeting

To: GSA Council
From: Sasha van der Klein
Date: July 14, 2017

Dear Council Colleagues,

The GSA Labour Relations Committee (GSA LRC) met on June 27 to review Bill 7 and the steps needed to ensure GSA compliance and to review the 2017 bargaining work plan, and to consider elements to include in the GSA’s first draft of the Opening Position for the upcoming round of collective bargaining, which will begin in the fall.

I am happy to answer any questions.

Report to GSA Council for the July 17, 2017 Meeting

To: GSA Council  
From: Royle Feng  
Date: July 14, 2017

Dear Council Colleagues,

Time flies! I hope many of you have enjoyed, or will enjoy, nice trips with your family and friends this summer. I am impressed by the wonderful weather this month, especially with the hot weather these last two weeks. During such an impressive period, I was mainly involved in the below activities.

At the U-Pass Administrative meeting, I communicated that the GSA Board would continue to pursue the issue of Michener Park transit and that it was a key item of the 2017-2018 GSA Board Strategic Work Plan. The U-Pass Admin Committee agreed to maintain Michener Park transit as a standing item on future committee meeting agendas. At the U-Pass Advisory Committee meeting, there were no Smart Fare updates provided but Edmonton Transit Service provided an update on the signing of the 2017-2021 agreements. They noted that they have received final approval from the city’s legal department and that the agreements would be distributed to post-secondary institutions and municipalities for signing shortly.

During a United Way Campaign committee meeting, I provided some feedback on their banners, signs, flags, and poster designs; since there are so many international students at the U of A, I recommended that multi-language advertising materials should be supplied as this will make the, campaign more inclusive. Following the kick-off of this campaign in the fall, the United Way Campaign Committee will request to attend a GSA Council meeting to provide a brief presentation regarding its work.

During my monthly meeting with the Dean of Students, I raised a question from a graduate student who, based on her past experience at the University of Waterloo, asked whether the University could provide piano rooms for all students to use. The Dean of Students expressed interest in this proposal as it might be a possible mental wellness initiative and we plan to follow-up with him in future meetings. I have also communicated with Ilya, the Students’ Union (SU) Vice-President Student Life, about this proposal and we are scheduled to discuss it further shortly.

As Masoud reported, this past month we also had a very enjoyable dinner with the SU executive, and I look forward to cooperating and coordinating on shared issues and projects.

Best regards,

Royle Feng, GSA Vice-President Student Services

Dear GSA Council Members,

As I am currently on maternity leave, Julie (who is serving as Acting Executive Director in my absence) and I collaborated on this month’s report to GSA Council. There are a few updates that we would like to highlight for you.

Firstly, as reported last month, the GSA’s annual external audit (as required by the Post-Secondary Learning Act) was conducted in June. The 2016-2017 Audited Financial Statements have been shared with you and, also as noted previously, the GSA is in excellent shape. After the GSA Council meeting the audit will be submitted to the University’s Board of Governors (also required by the Post-Secondary Learning Act) and posted on the GSA’s website. Additionally, this month the first report on budget and expenditures for 2017-2018 was circulated to GSA Council. The budget is on track and there are no issues or concerns.

Secondly, this summer the office is busy working on a number of things in preparation for the fall, including ongoing work on ensuring the GSA’s compliance with the provisions of Bill 7 and holding town halls to inform graduate students and get their feedback on the important changes contained within this legislation, preparing for negotiations (in the fall) of the next Collective Agreement, designing the 2017-2018 GSA Planner, planning for fall and departmental orientations, and drafting proposed changes to a number of GSA Bylaws and Policies that will come forward to relevant GSA Standing Committees and, ultimately, to GSA Council in the upcoming months (including changes to the Nominating Policy and the Legal Defence Fund Policy).

Best,
Courtney Thomas, Executive Director, and Julie Tanguay, Associate Director and Acting Executive Director

Management Report to the GSA Board, June 21, 2017

The following issues have dominated management’s attention in the two weeks since the last GSA Board meeting on June 7, 2017:

Strategic

- **Main Issues Dealt With in the Past Two Weeks:** Forward planning for GSA events; GSA Council remuneration; design of the GSA Planner for 2017-2018; file clean up and associated document archiving and destruction; GSA Budget and Finance Committee meeting, GSA Council and associated post-meeting action; preparing for an upcoming meeting of the GSA Labour Relations Committee; annual GSA audit; Bill 7 discussions and a meeting with the GSA’s legal counsel to review the opinion on the legislation that they provided; meeting with the VP Labour to discuss a communications plan associated with Bill 7; researching graduate student unions at other Canadian institutions; forward planning for the 2018 GSA General Election; and support for the drafting of the 2017-2018 GSA Board SWP (and associated release letters to stakeholders and partners).

- **Bylaw and Policy Review:** Follow up work associated with the GSA Nominating Committee’s recent review of GSA Policy on Nominating (reviewing an eight draft of potential proposed changes to GSA Bylaw and Policy in advance of a meeting of the GSA NoC over the summer); reviewing a third draft of potential proposed changes to GSA Bylaw and Policy on the Legal Defense Fund; and reviewing a first draft of potential proposed changes to GSA Policy of Budget Principles, Practices, and Procedures.

- **Graduate Student Groups:** Ongoing strategizing related to residence associations; relationship building and maintenance with Student Group Services (revisiting an outdated MoU, etc); and review of various group constitutions.

Grants and Office Operations

- Planning for fall events (including departmental orientations), selling ad space in/designing the GSA 2017-2018 Planner, and ordering GSA branded items.

- Cross-training on grants processing and participating in PeopleSoft training.

- Annual GSA Council remuneration.

- Supporting the work of the GSA Nominating Committee (filling vacancies on the GSA Labour Relations Committee and the Green and Gold Grant Adjudication Committee; forward planning for the 2018 GSA General Election; and election of the GSA Chief Returning Officer, GSA Deputy Returning Officer, GSA Speaker, and GSA Deputy Speaker).

- Transfer of content to Sitecore 3 (to be completed in June), associated internal review prior to sending to IST for final review, and finalizing the GSA’s MoU with IST.

- Facebook = 970 likes (up 4 from June 21); Facebook posts reached 703 users this week and our “post engagement” count was 165. Twitter = 747 followers (up 0 from June 21); our tweets earned 1,200 “impressions” over the last week.
